2. Preliminary specifications were submitted to [] together with numerous photographs of the original [] equipment. Many ideas, some based on submitted material, and others a result of previous discussions, resolved that the future RS-13 equipment should: 50X1

A. Operate from A.C. only,

B. Utilize the RR-6A receiver intact, other units to either be fabricated or modified components of the RS-6A equipment, as applicable.

3. Other technical details were to be worked out as encountered or resolved at the time the actual specifications were produced.

4. An estimated cost of \$25,000 was submitted by [] which would be an addition to the now existent Services Contract. For this sum [] would produce 8 RS-13 sets, 6 by 1 March 1955, the others to follow later. 50X1

5. A functional block diagram of the system and a schematic diagram of the keying circuitry was delivered to [], who committed his company to preliminary investigation of the circuitry prior to submission of their formal proposal. 50X1
